Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule(s) 1.322.

Review of applicants request filed in this office January 3, 2006 has revealed the changes requested as not warranted since the 1449 attached to supplemental Notice of Allowability dated December 20, 2004 with regard to applicants request is not recognized as specifically reflective of data submitted on PTO-1050.

Regretfully, applicants request is denied due to non-compliance with filing requirements in regard to style and formatting procedures for requesting corrections to the Letters Patent. To further consider proposed changes applicant may resubmit a request under 37 CFR 1.322 and/or 1.323 which clearly identifies on the PTO-1050 form the point of reference as presented in the printed patent by use of column and line numbers as well as directives e.g. add, delete. For more detailed instructions concerning formatting and procedures for requesting corrections under 37 CFR 1.322/1.323 see MPEP 1485.

Further correspondence concerning this matter should be filed and directed to Decisions & Certificate of Correction Branch. Any telephone inquiry concerning this communication should be directed to Ms. A. Green at (703) 308-9380 ext. 123.
